entenant Governor Ballard Teas Near Mayor and Ches Teases Audience.

Republican machine sees that the surprising defeat in Kentucky hurt Tobe's chances for a Cabinet position. It sure does look bad for the Kentucky Republican machine. In Kentucky Republican machine. In 1919 Morrow carried the State by a 40,000 majority, and just one year later, with the Republican machine in full power and the Republican machine sees that the army of crooks who are doing their Christmas shopping in our midst play "I Spy" with the Keystoners and queer the Chief's lecture. If the Chief ever invites questions some of his hearers ought to ask him the following:

"Why was the Straley murder case dropped?"

year later, with the Republican machine in full power and the Republican landslide sweeping the country, the Democrats overcome the 40,000 majority and carry the State for Cox. And it might be said right here that thousands of Democrats voted the straight Republican ticket to insure a vote against Beckham or the defeat would have been more decisive. It demonstrates that the reign of Morrow, Ballard and the Hert-Searcy-Chilton machine has proven obnoxious to the voters and the pendulum has swung again to the Democratic party.

"Why was the Straley murder case dropped?"

"In his announced cleanup why were no negro loafers arrested?"

"Why are the list of robberies kept from the press, reporters being barred from his office?"

A look at the negro dives on Walnut, Chestnut or Cedar streets shows hundreds and hundreds of idle negroes loafing in front every day, and the Chief might tell us if they are unmolested because of their worth to the Republican party. Robberies and assaults have been so numerous that it is rumored that the police of the Seventh district mu-

But the white people of Kentucky will disagree with him, as they recognize the fact that he was the chief instrument in securing free voting privileges for the negroes. Ballard worked mightily to abolish the certificate which kept a check on the crooked negro voters, and he musn't now try to sidestep the glory from the Republican mathine followers. Incidentally he phone question, the gas question, street car fares, and pretty near truth at the banquet when he said men, who can't see the joke. that many obstacles had confronted during his administration. Good roads and taxation are camouflage for political redistricting. But aside from that Kentucky is safely Democratic for years to come, one year of "Howdy Ed" and the Hert machine being enough. The same situation applies to Louiswille. The voters, sick of the raised assessments, higher taxation, Keystone police, "hick" firemen, filthy streets and alleys, are more than willing to turn to the Democratic party for relief. A strong man for Mayor with a good clean ticket from top to bottom will sweep the city and county. One frequently hears the names of James R. Duffin, W. O. Head, Joe O'Neal, Scott Bullitt, Charjes H. Knight and James H. Richmond for Mayor, any one of whom would be strong material. The ticket headed by any of the above would win easily, if the Hert-Searcy-Chilton machine is provented from voting every negro in town the cry from Ballard and the ma-

The much talked of Martin case is proving a "jonah" for the administration. Prosecutor Lucas and Jailer Barr are handing bon mots to one another over the prisoner's treatment and Lucas also joits Chief of Detectives DeForrester in the same case. To begin with, Sleuth DeForrester went to Dallas a year ago after some expert trailing by the Keystone boys and pounced on an insurance man that looked as much like Martin as Red Riding Hood looked like Mother Goose. Now the Chief goes after Martin and gets the wrong train in trying to find the way with his prisoner back home. But here is a clue the public can work out for itself. Abscender Martin announces that the sconder Martin announces that the sconder Martin announces that the law firm of Edwards, Ogden and Peak will represent him, DeForrester formerly being associated with that office. And to make it nice and easy for his law associates DeForrester tells the public press that Martin was a "model" prisoner and "jim-dandy feller," and ladled out a lot of sob stuff to excite sympathy.

lot of sob stuff to excite sympathy. Fine work, eh!

It looks like they just can't keep the head of the Keystoners off the lecture platform and from day to day we read where Chief of Police Petty addressed the Optimist Club, the Rotary Club, the Nice Boys' Bible Class or some other gathering, and in all of his lectures works in that joke about Louisville having sure enough, honest-to-goodness policemen. RESOLUTIONS ARE ADOPTED.

Watterson's Letter.

I regret that the state of my health will not permit me to accept the honor and to fulfill the duty your ever-partial favor would assign me. My single claim to that favor springs from the circumstances that I have been always a friend of Ireland people, in and the Irish younger manhood associated with John Mitchell and Thomas Francis Meagher, John Savage and Joseph Brannan, my close friends and professional yokemates. No free-born man can read the story of Ireland from the days of Cromwell to the days of Lloyd George without a sense of burning indignation. Long ago I lost all hope, if I ever had any real hope, of justice to Ireland from England. The English are the racial enemies of the Irish as they are the natural, na-tional and historic enemies of the Americans. The time may come when they will be required to meet and pay the long bill of spoiliation and wrong piled up against them by centuries of selfcomplacent rapine, and though I may not believe the vision of my boyhood of sweeping through Picadilly with a troop of Black Horse Cavalry to plant the Stars and Stripes over the Marble Arch and camp in Hyde Park, there are children—maybe full-grown men—who will live to see it. So, good luck and God bless the sons and daughters of Ireland, and may the Divil fly away with John Bull, Edward Carson & Co.!

Faithfully yours, HENRY WATTERSON.

The meeting closed with the singing of "God Save Ireland" and the "Old Kentucky Home."

Reports from all over the country show that the industrial situation is anything but what it ought to be. The army of the unemployed is daily becoming more numerous and thousands upon thousands of people are facing the dreary winter months with despair in their hearts. You can come to our Investment Department and by investing \$5 procure a saving-investment certificate for a share of our 7 per cent. Preferred Stock, which pays dividends regularly every ninety days and which has an eighty-two-year record of consistent returns to the investor back of it.

Present this Certificate to your son or daughter or some other young person in whom you are interested They can do one of two things - (1) bring the certificate to our office and cash it for \$5 to be spent for something to be used or consumed, or (2) utilize it as a medium for systematic saving (with 6 per cent. interest earnings) until they are a preferred stockholder in this Company and own a security worth \$100, paying them \$7 a year cash. Their savings may be \$5 a month or as much more as they please.
